

## ABSTRACT

2 An ultra fine mineral compound and method of processing native Dead Sea  
3 minerals into this ultra fine mineral compound that can be used to manufacture all  
4 natural Dead Sea mineral compositions particularly compositions for use in bath and  
5 body products is disclosed. Even with the extreme ionic character of the Dead Sea  
6 minerals, the Dead Sea mineral compositions prepared remain in suspension creating a  
7 viable cosmetic preparation that can maintain adequate shelf life and provide a more  
8 pleasant feel for the consumer.
